

BREWERS NOTES

MANDARIN SOUR

DATE: JANUARY 2021

For our first release of 2021 we're starting on a sunny note.

We've always been big fans of citrus flavours and for this brew we sourced fresh Australian mandarin juice. We deliberately chose light malts to allow the juice to shine through and shine it certainly does!

Prominent mandarin aromas set the tone for a refreshingly sour beer that drinks clean and crisp.

It's perfect for hot summer weather!
