

BREWERS NOTES

RARE BREED: ROCKY WEST COAST IPA

DATE: APRIL 2024

Hands up if you've ever had a really great West Coast IPA and immediately started planning a beer tour of the Pacific Northwest.

So, that's...all of us.

Well strap yourselves in because with this brew we're off to Hop Country!

Brewed with a combination of Columbus, Chinook and Centennial, Rocky West Coast IPA is a celebration of hops. The bold pine characters synonymous with the West Coast style are unmistakable, and dance across the palate from first sip.

But this beer is more than just a hop-bomb; it's balanced, with the malt backbone complementing the clean hop bitterness.

We wanted this beer to taste like the sun splitting the forest trees on a fresh morning hike, and you know, we reckon we're pretty close.

APPEARANCE:

Golden.

AROMA:

Pine and citrus.

FLAVOUR:

Deep pine, touch of citrus and clean bitterness.

TASTING NOTE:

Balanced malt and hop bitterness with fresh pine and citrus.
